Cost Disclosure

Notice

A Note Regarding Cost Disclosures: Cost disclosures are intended to provide information regarding fees related to the use and/or subscription to certified functionality within the certified electronic health information technology and related health IT modules. Please note that the fees described herein are intended to provide notification of the existence of a fee where one exists and not a detailed fee schedule. Additional fees may exist for functions, services, subscriptions that do not involve or require certified functionality, services, and subscriptions. This information is subject to change without notice but is mandated to be updated, at minimum, quarterly each calendar year as per the ONC Conditions of Certification Maintenance requirements.

Revision History

The Revision History table below provides a record of all revisions made to this document throughout its life cycle. Updates are tracked by date the revisions were made, the version number, a brief description of the changes made and reason, as well as the name of the reviser and the approver.

Capability and Description

ONC Certification Criteria for Health IT applicable to Sightview Regulatory Compliance Platform Version 2.0: b10, d1, d2, d3, d5, d6, d7, d8, d9, d12, d13, g2, g4, g5

Sightview Regulatory Compliance Platform Version 2.0 is a cloud-based modular application that when used in combination with other Health IT Modules, forms a complete CEHRT solution for healthcare professionals in ophthalmology and optometry in outpatient office and ambulatory environments. It allows users to perform a wide range of functions such as:

- Provide Promoting Interoperability category calculations for MIPS reporting purposes.
- Create "gold standard" electronic health information documents required for referrals, transitions of care and to share with the patient.
- Send/receive messages and attached documents to/from the HISP via Direct Edge protocol.
- EHI Export of single patient and all patients' data: Requires use of the Sightview CEHRT to perform export requests.
- Sends API calls to third-party vendors for the purpose of performing Decision Support Intervention upon request. Requires use of the Sightview CEHRT to perform API requests.

Types of Costs or Fees and Additional Types of Costs or Fees

There is no additional cost associated with the Sightview Regulatory Compliance Platform Version 2.0 and is provided as part of a complete CEHRT solution in conjunction with the Sightview EHR (Electronic Health Record). Subscription fees may apply to the EHR, portal, standardized API, Practice Management or other modular services that make up the complete CEHRT.
