

# Why It's Time to Make the Switch to **Text-to-Pay**

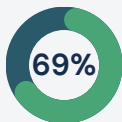

Many practices wait **60+ days in A/R** before payments are received.

Manual billing, mailed statements, and follow-up calls delay cash flow, drain staff time, and leave revenue uncollected month after month.

## Your Patients Already *Want* to Pay by Text

of people say texting is the fastest way to reach them.

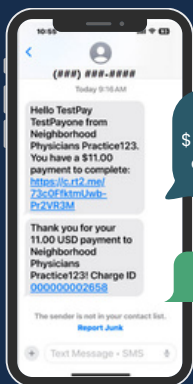

of consumers want to receive texts related to payments.

of people prefer paying medical bills electronically.

of SMS messages are opened, on average.

You have an \$11.00 payment to complete: [link]

**PAID** ✓

- ✓ **Quick Text**
